

Now You Can  
Deliver the Service  
Your Customers  
Expect with

## *AlarmWATCH*™ Automated Receptionist

*AlarmWATCH* provides a reliable, flexible answering system for you to conduct business with your customers.

*Why us? Our system was created for Alarm Dealers!*

*AlarmWATCH* Automated Receptionist offers advantages that conventional answering systems and services simply cannot give you:

- ☎ One number answers all your calls with a customized professional greeting;
- ☎ Puts your customers in direct contact with the Central Station, with one touch, from your phone number;
- ☎ Your techs can't miss an emergency call because our system will continue to page at your defined time interval, and if not responded to, route call to another pre-defined contact and so on, until a contact has cleared the call;
- ☎ We help you define a concise and effective message system with a tree of calling options that you and your customers want and need;
  - State-of-the-art features include Auto-Attendant, Smart Extensions and Voicemail
  - Caller has the option of reaching a desired contact by extension, department, and dial by directory
  - Caller requests the extension and automation connects the call immediately
- ☎ No extras to buy -- 100% virtual with no hardware or special equipment required;
- ☎ Quick and easy setup -- one call, 24 hours and you're ready to go;
- ☎ Cost efficient -- at just \$24.95 per month

***AlarmWATCH's* Automated Receptionist - A High Quality, Low Expense Upgrade to Your Company's Image and Service Delivery**
